- Type 1 – Type I Collagen – the most abundant and strongest type - used for tendons, ligaments, organs, skin, the gut, bones, wound healing, skin elasticity, holding together tissue, teeth, eyes. Type I helps minimize sagging skin on the face and wrinkles. It also helps you grow strong thick hair.

# Collagen Complex PRO Capsules Type 1 2 3 5 and 10 for Anti-Aging, Joint, Skin & Bone Support\*

- You can use the pill form with Velocity Supplements COLLAGEN PRO. Get 5 types of collagen which makes taking collagen much more convenient vs. mixing into a drink or having to drink disgusting tasting bone broth.
- Collagen supports faster post workout recovery - or support for recovery from a hard day's work.
- Collagen supports a leaner body that comes from obtaining nutrients you need without having to eat as much quantity of food.
- A leaner body that comes with having more muscle mass which collagen can help grow.
- A healthier digestive system can come with collagen assisting repair and regeneration of the digestive system.
- Collagen is needed in gut's connective tissue and supplementation may help support the protective lining of your digestive tract.
- Having stronger gut walls may help you seal up leaky gut (leaky gut is a

dangerous condition which can allow food and bacteria from the gut escape out of the gut into the rest of your body wreaking havoc with bacteria like candida culturing elsewhere...
