

How VTOX Cleanse Supplement Formula Helps Get Rid of Heavy Metals in the Body

Heavy Metal Binders - Heavy metals are a big problem in the body. They increase bad bug replication dramatically. It's very difficult to be well if you have heavy metal poisoning in your body so therefore having a supplement that goes to work to help pull heavy metals out of the body could be a very helpful thing!

There are many foods and herbs associated with helping cleanse the body of heavy metals. Also different Clays and "dirt" are associated with helping lockdown heavy metals in the body and carry them out. That's great news! So we're not stuck with heavy metal poisoning!

Heavy metals in the body create so many problems in the body. They could also help bad bugs spread and multiply in the body according to one researcher, hundreds of thousands of times faster which was pretty freaky sounding.

A few of many of the symptoms associated with heavy metal poisoning or just having heavy metals floating around in the body are: neurological disorders, depression, autoimmune disorders including Lyme disease, slow recuperation and recovery from work and exercise, skin irritation, chronic fatigue, insomnia, chronic pain, anemia, impaired motor control, vision and speech problems, heart attack risk, and as mentioned exacerbation of infection of bed bugs in the body. Source

Heavy metals can come from all sorts of sources including your foods, from packaging, from your water, from household substances, personal care products, you're cooking utensils, the air from chemtrail sprays another pollutions, dental fillings and so on and so forth.

VTOX Multipurpose Detox Supplement, Maintenance Cleanse & Colon Cleanse contains Asians particularly chlorella for helping bind and Carry Out heavy metals from the body. Also if you want extra chlorella we have Chlorella capsules. Cinnamon, turmeric, ginger, are also associated with helping cleanse the body of heavy metals.
