- + Vitamin E Oil

~ 3rd Party Tested for Purity & Potency ~ 1 fl oz (30 ml)

Promotes Scalp Skin Health and Hair Follicle Health. Hair Health needs to be maximized from within through nutrition and from without with topical nutrition. Our Hair oils help provide high density nutrition for your hair follicles to maximize potential of hair growth, hair regrowth and thicker hair.

Our hair oil is a powerful and potent blend of highly nutritious oils as you can see from the list of oils involved. These different oils in our hair oil formula help directly nourish the hair follicles. The objective is to scrub the hair oil into the scalp to feed the hair follicles.

What I found from my own personal experience is that firstly these hair oils smell really good. Secondly what I found is even in as little as six weeks my own hair grew back thicker, meaning the texture of the hair appeared thicker and the hair density on the scalp increased (so less “scalp shininess” was seen). And as an added bonus benefit I have noticeably less gray hair! This was even noticed by others without me telling them anything about me using these hair oils! (and no I do not dye my hair nor have I ever).

There is a widespread hair loss crisis out in society today. There can be several factors contributing to this but one of the most significant factors is due to lack of nutrients. Hair follicles have been starving! People on average do not have any idea how few nutrients they actually take in from their daily diet these days. Additionally most don't know how many nutrients that they actually need for functionality and great hair!
