

## Krill Oil Supplements

Krill oil is considered to be a more potent form of Omega-3 supplementation. It has better absorption and has a more powerful punch and different benefits contrast to omega-3 mega three fish oils.

Some krill oil benefits include fighting inflammation, heart health support, healthy skin support, bone health support, strong bones and joints support, immune system support, weight loss support, anti-aging... Has astaxanthin... Helps relieve dry eye symptoms... Triglyceride levels support.. Has A x e antioxidants of fish oil... Contaminant free... Has phospholipids and

phosphatidylcholine which helped give me a mega 3 into the bloodstream... Is less prone to oxidation... Gut health support...
